PROFILE

Frontend Developer with around 5 years of professional experience, including 4 years specializing in React.js development and the last year building full-stack applications using React.js, Next.js, Node.js, and Express.js. Experienced in developing scalable web applications, integrating REST APIs, optimizing application performance, and delivering clean, maintainable, production-ready solutions in Agile environments.

WORK EXPERIENCE

AppMixo®

08/2025 – Present

MERN Stack developer

- Developed responsive web applications using React.js, Next.js, Node.js, and Express.js for multiple client projects.
- Built reusable frontend components and integrated REST APIs to deliver scalable and maintainable applications.
- Developed backend APIs and database operations using Node.js, Express.js, and MongoDB.
- Collaborated with designers and cross-functional teams in Agile development to deliver production-ready software.
- Implemented secure user authentication and authorization using JWT.

React.js Developer

06/2024 – 07/2025

Macrotech (USA) Inc.

- Developed a scalable Property Management System (PMS) using React.js, Redux, MQTT, and dynamic forms for real-time IoT communication.
- Built a responsive KIOSK application using React.js, WebSockets, and MQTT for real-time device monitoring and low-latency data visualization.

React.js Developer (Team Lead)

03/2023 – 04/2024

Codezee Solutions Pvt. Ltd.

- Led the end-to-end development of a product-based React.js application, delivering complex features with a focus on usability and performance.
- Managed and contributed to multiple React.js projects simultaneously, showcasing strong project management and time-management skills.
- Built and optimized a robust party booking system using React.js, streamlining the reservation process and enhancing user experience.
- Mentored junior developers and conducted code reviews, ensuring high code quality and adherence to best practices across the team.

React.js Developer

01/2022 – 01/2023

AGILE Infoways Pvt. Ltd.

- Developed responsive and user-friendly web applications using React.js, Redux, and Redux Thunk, collaborating with cross-functional teams to deliver scalable solutions.
- Built reusable React components and implemented React Hooks and Redux for efficient state management and asynchronous data handling.
- Integrated REST APIs using Swagger documentation to enable seamless communication between frontend and backend systems.
- Converted UI/UX designs into responsive, pixel-perfect user interfaces using Semantic UI, HTML5, CSS3, and custom CSS.

React.js Developer - Intern

08/2021 – 11/2021

WebEarl Technologies Pvt. Ltd.

- Gained hands-on experience in building dynamic and responsive web applications using React.js and modern JavaScript.
- Developed a strong understanding of component-based architecture, state management, and front-end development best practices.

- Collaborated with senior developers through code reviews and feedback sessions, enhancing code quality and professional skills.

EDUCATION

B.Tech

2017 – 2021

P.D.E.U, Gandhinagar

Information Communication and Technology

Diploma

2013 – 2017

Sir B.P.T.I, Bhavnagar

Information and Technology

SKILLS

Frontend

- React.js
- Next.js
- JavaScript
- TypeScript
- HTML5
- CSS3
- Tailwind CSS
- Bootstrap
- Material UI

Backend

- Node.js
- Express.js
- REST APIs
- GraphQL

Database

- MongoDB
- Firebase

State Management

- Redux
- Redux Toolkit
- React Router

Tools

- Git
- GitHub
- Postman
- Swagger
- Vercel
